Precision Engagement

Current Situation

What we need to do better

Requirements

- Adapting to changing conditions
- Matching operational needs with systems solutions
- Overcoming biases of Services and others
- Moving to transform military
- Setting capability-based requirements

PPBS

- Laying analytical foundation for DPG and program review
- Aligning budgets with acquisition decisions

Acquisition

- Making system decisions in a joint, mission context
- Transitioning technology
- Assessing complexity of new work and ability to perform it
- Controlling schedule and cost
- Passing operational tests
- Delivering fully integrated and interoperable systems-of-systems

Sustainment

- Controlling O&S costs
- Reducing logistics tails

Proposed Approach – Manage development of integrated architectures
